THE BANI WORLD

MOST CON RECTORY

Polk's Bankers Encyclopedia, issued semi-annually in March and September, is compiled for the use of bank executives, brokers, collection and credit men, manufacturers, merchants and industry generally. It covers completely and accurately the banking field throughout the whole world, giving the names of officials and directors, resources and liabilities in detail.

ONE VOLUME

THREE MAIN DIVISIONS

SECTION I—Devoted to the United States, Philippine Islands, Porto Rico and U. S. Possessions.

SECTION II—Devoted to Canada, with a digest of the Banking and Commercial Laws of the United States, its Territories and Canada.

FOREIGN—An Alphabetical list of Banks and Bankers throughout the World (except the United States, U. S. Possessions and Canada). (Corrected yearly, in September edition).

Price $15.00 per copy

In Canada and Foreign Countries $20.00

INTRODUCTION

The POLK-CLEMENT DIRECTORY CO., publishers of Polk's Buffalo City Directory, present to subscribers and the general public, this, the 1934 edition, which also includes Kenmore.

Confidence in the continued growth of Buffalo's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Buffalo to the world.

The enviable position occupied by POLK'S Directories in the estimation of the public throughout the country, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Buffalo Directory will fulfill its mission as a source of authentic information pertaining to the community.

Population

The population of Buffalo and Kenmore is estimated at 651,942, based on the number of personal names in the Alphabetical section of the Directory, with due allowance for those under Directory age. Names from territory immediately adjacent, which is part of the community, as far as business and social life are concerned, are included in the Directory, and, likewise, in the population estimate.

Five Major Departments

The five major departments are arranged in the following order:—

THE MISCELLANEOUS DEPARTMENT, pages 12 to 30, presents lists of city, county, state and federal officials; post office and public school Directories; statistical review; historical sketch; and manufacturing, trade and civic surveys.

THE BUYERS' GUIDE, pages 37 to 132, printed on tinted paper, contains the advertisements of leading manufacturing, business and professional interests of Buffalo and vicinity. The advertisements are indexed under headings descripitve of the business represented. This is reference advertising at its best, and merits a survey by all buyers eager to familiarize themselves with sources of supply. In a great commercial and industrial center like Buffalo, the necessity of having this kind of information immediately available, is obvious. General appreciation of this fact is evidenced by the many reference users of this City Directory service.

THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is included in pages 133 to 1571. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Buffalo and Kenmore, and the name, official personnel, nature and address of each firm and corporation in the community.

THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, covers pages 1573 to 2070. In this section the names of the streets are arranged in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. A feature of this section is the designation of tenant-owned homes.

THE CLASSIFIED BUSINESS DIRECTORY is included in pages 2073 to 2218. This department lists the names of all business and profressional concerns in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable catalog of the numerous interests of the community. The Directory is the common intermediary between buyer and seller. As such it plays an important part in the daily activities of the commercial and professional world. More buyers and sellers meet through the Classified Business Directory than through any other medium.

Community Publicity

The Directory reflects the achievements and ambitions of the community, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Buffalo and vicinity.

The Buffalo Directory Library

Through the courtesy of the publishers of the Buffalo City Directory, a Directory Library is maintained in their offices at 602 Root Bldg., for free reference by the general public. This is one of nearly 450 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

POLK-CLEMENT DIRECTORY CO.,
Publishers.

Amusements — Largest auditorium in city seats 8,500 persons. 78 moving-picture theatres, with total seating capacity of 61,674 persons. 4 legitimate theatres, with total seating capacity of 6,086 persons. 30 golf courses in and around the city, including 4 municipal courses.

Hospitals—22, with total of 5,500 beds.

Education—Institutions of higher learning include University of Buffalo, Canisius College and D'Youville College. 92 public schools, including 9 high. 68 parochial schools. Number of pupils in public schools, 88,700; in parochial, 33,100. Number of teachers in public schools, 3,503; in parochial, 929. Value of public school property, approximately, $47,000,000.

Public Libraries — 1 main and 14 branches, containing total of 632,732 volumes.

City Statistics—Total street mileage, 721.048, with 555.676 miles paved. Miles of gas mains, 1,125; sewers, 679.8606; electric street railway, 203.41. Number of light meters, 182,693; gas meters, 135,000. Capacity of water works (municipal), 270,000,000 gallons; daily average pump, 118,535,700 gallons; miles of mains, 737.62; value of plant, $30,041,099.56. Fire department has 947 men, with 52 stations and 93 pieces of motor equipment. Police department has 1,264 members, with 17 precincts. Station WMJ is owned and operated by the Police Department, with 65 radio-equipped cars.

Digitized by Google

History

Buffalo was not in existence at the time of the American Revolution. In 1795 a few houses were located on the city's present site. In 1804 these numbered twenty. By 1812 the population was considerably increased, and the village became a center of interest because of the war on the frontier. In Dec., 1813, it was attacked and captured by the British and Indians, and every house was destroyed. The village was quickly rebuilt. By May, 1814, there were 23 houses, taverns, stores and shops. In the 1820 census there were 2,095 inhabitants.

Buffalo had a natural reason for growth. It was at the foot of navigation on the Great Lakes. The first steamboat on the Lakes sailed from Buffalo in 1818. In 1825 the opening of the Erie Canal made Buffalo an important trans-shipping point from New York to the West. From that time on, its shipping increased until now it is the fourth port in the United States, and one of the largest on the Lakes for the value of its tonnage. The largest breakwater in the country protects the harbor.

Much grain comes down the Lakes, and must be unloaded at Buffalo. The first steam grain elevator was erected by Joseph Dart in 1843. This business has so increased that now it is estimated that one-fifth of the grain produced in the United States passes through Buffalo, and with its 29 huge elevators, it is the greatest grain storage city in the world.

Since the grain came to Buffalo, milling started early. By 1870 some of the leading milling companies in the country were in Buffalo, but in recent years a great increase has been noted, from 6,000,000 barrels to more than 12,000,000 barrels a year. Buffalo has produced more flour than Minneapolis since 1930, and Buffalo is now the milling center of the world.

The first railroads in the United States were built in the 1830's. Buffalo had its first rail communication in 1833. The coming of the New York Central, Erie, Lackawanna and others from the east and south, and the extension to the west by the Lake Shore, Michigan Central and others made Buffalo an important railroad center. Rail transportation has developed so much here that Buffalo is now the second largest railroad center in the United States. As a result, it is one of the largest coal-distributing centers in the country.

In 1832 the second City Directory was published (the first having been published in 1828), recording that the city had about 10,000 inhabitants and forty manufacturing establishments. This period marked the beginnings of Buffalo's industrial development, which now is probably the most diversified of any city in the United States. Seventy per cent of every line of manufacturing in the United States is to be found among Buffalo industries. Great increases came in the decade after the Civil War and in recent years, especially since the World War. Among the products of these industries there must be noted pig iron, in which the Buffalo district is one of the largest centers in the country; linseed oil, much of which is manufactured by the largest linseed-crushing plant in the United States; dyes, for which the largest plant in the United States is in Buffalo; rayon, with one of the largest plants; wallboard, which started here in 1906 and where nearly three-quarters of the country's total supply is produced; stock yards, in which Buffalo stands among the first six cities of the country, with the largest sheep market; in recent years, the automobile, and now the airplane. In hotels, Buffalo is the home of the first of the Statler system, and convention activities are highly developed because of the hotel and railroad accommodations and the city's proximity to Niagara Falls. More than 200 conventions come here annually.

Hydro-electric power became a topic of interest in the 1890's, and by 1895 Buffalo began to use power from Niagara Falls. The nearness of Niagara Falls, with the largest hydro-world, has brought Buffalo an ideal power system.

Buffalo has not neglected the cultural side of life. The first church was established during the War of 1812, and there are now 340 in the city. The Buffalo Gazette was established before the burning of the city, and the power of the press is strong. In 1817 the first school was started and the school system has had a remarkable development. The first night schools in the country were established here, and Buffalo leads in night school attendance. Americanization work has been highly developed. In higher education, the University of Buffalo Medical School was started in 1839. Extensions and additions followed, and since 1913 Buffalo has had a complete university of high standing. D'Youville College, for women, dates from 1908, and Canisius, a Jesuit institution for boys, and later, in its extension work, for both sexes, began in 1870. In 1928 the Buffalo Normal School became the State Teachers College at Buffalo, and constructed a number of buildings on a new site opposite the Albright Art Gallery. There are also private schools and numerous opportunities for specialized education. The Buffalo Public Library dates from 1836, and its system of school libraries is known throughout the world as a model. The Gros-

Digitized by Google

venor Library, founded in 1859, is the fourth largest reference library in the country. The Charity Organization Society was the first one in the country to have a paid secretary. The first domestic relations court was established here, and twenty-five social agencies are united in the Joint Charities.

Buffalo is situated within 500 miles of one-half the population of the country and it is only over-night from the leading cities and the leading industries of the United States.

Miscellaneous Facts About the "Queen City of the Lakes"

Buffalo is the ninth largest manufacturing city, and the second largest inland port of the United States, and one of the ten largest ports of the world.

Buffalo's foundry industry is the largest in New York State.

Buffalo is the largest linseed producing center of the country, with the largest aniline color plant of its kind in the United States.

Nearly one-third of all the automobile bodies and parts manufactured in New York State are made in Buffalo.

Buffalo does one-fifth of all the slaughtering and meat-packing of the state.

Buffalo manufactures from 90 to 95 per cent of all steel castings in New York State.

The Buffalo district is one of the largest pig-iron producers in the world, having more than a score of blast furnaces with an annual capacity of nearly 3,000,000 tons.

It is in the center of that region where about 80 per cent of the amount of net income is paid.

It is in the center of that region where more than 80 per cent of value of all manufactured products is produced.

Sixty per cent of the people of the United States and 70 per cent of Canada's inhabitants live within 12 hours' railroad travel of Buffalo.

There are 14 freight stations in the city.

Buffalo is the western terminus of the New York State Barge Canal system, which cost approximately $170,000,000. The canal is the longest in the world and has a capacity of 20,000,000 tons annually.

Buffalo has 37.4 miles of water frontage, of which more than two-thirds have been improved.

Buffalo's high standing as an industrial center and port is based on figures, applying wholly within the city limits, which have not been extended in 80 years. The tremendous industrial development just outside the city limits is part of Buffalo in every way except politically.

Buffalo is one of the three leading aircraft manufacturing centers of the United States.

Buffalo manufacturers employed 68,854 workers when the U. S. Industrial Census of 1929 was taken.

The value of products turned out annually in Buffalo factories was $720,200,989, according to the 1929 U. S. Industrial Census.

Capital invested in manufacturing plants within the city limits of Buffalo is nearly $600,000,000.

Erie County, with Buffalo as the county seat, is first in value of farm property in New York State, and first in value of farm products.

Of all the different lines of manufacture recognized by the United States Census Bureau, Buffalo has more than 200, or 70 per cent. The Niagara Frontier has 80 per cent.

For ten years the average number of building permits per year was 7,000, with $24,141,000 valuation per year.

Buffalo's population is 573,076 (1930 U. S. Census). The U. S. Census estimate for 1933 was 601,696.

Buffalo is the center of that region which buys 80 per cent of all merchandise sold in the United States.

It is in the center of that region where 70 per cent of all families live.

It is in the center of that region where 70 per cent of all automobiles are sold.

Buffalo has some of the largest grain elevators in the world, with storage capacity of 49,000,000 bushels.

Buffalo originated the night school in 1910.

Buffalo for years has had the largest night school attendance of any city of its size in the world.

Buffalo averages one automobile for every four inhabitants, according to a recent survey.

The largest breakwater in the world protects Buffalo harbor.

Two million people, who come to see Niagara Falls, visit Buffalo annually.

The Buffalo Automobile Club has one of the largest memberships of any in the world.

Buffalo has the largest municipal pumping plant under one roof in the world.

The first charity organization society in America was organized in Buffalo in 1877.

Half the people of the United States live within 500 miles of Buffalo.

The Stock Yards of Buffalo stand as one of the half dozen largest in the world.

The first steam elevator was erected in Buffalo in 1843. It was the invention of Joseph Dart, of this city.

More than 200 international, national, interstate and state conventions meet annually in Buffalo.

Digitized by Google

Buffalo is the only American city owning and maintaining two convention halls for the free use of visitors.

At Buffalo is the greatest development of hydro-electric power in the world.

The Albright Art Gallery is one of the finest buildings erected and used exclusively for art exhibitions in the world.

The wallboard industry was started in Buffalo in 1906. Buffalo produces 75 per cent of the world's wallboard and great quantities of plaster board. Asbestos board is Buffalo's newest wallboard.

Buffalo has one of the finest municipal airports in the United States. It covers 555 acres. The city also has a marine airport, complete in all respects.

The bonds of the City of Buffalo are considered by investment bankers to be as good as any in the country, and perhaps the best.

Buffalo is one of the great railroad centers of the world; nearly 200 passenger trains and 500 freight trains arrive and depart daily. Within the city limits are more than 700 miles of railroad track. The city is served by 12 main lines of railroad.

For years the Buffalo district was the greatest lumber market in the world, and is still an important market. At times the yards of the city have contained 200,000,000 feet of lumber.

Buffalo is known as a "City of Diverse Industries," producing in quantities a great diversity of the different lines of goods recognized by the U. S. Census Bureau, more than 200 different items being represented.

The Lackawanna Branch of the Bethlehem Steel Co, has the largest and most complete individual plant in the world. The company has its own breakwater, a mile long, and a harbor of its own. The sum of $60,000,000 was spent recently to enlarge the plant.

Delaware Ave. has always had the reputation of being one of the handsomest streets in the country, and foreign visitors often declare it to be one of the finest thoroughfares of the world.

Buffalo had the first domestic relations court, the first district visitor, the first superintendent of schools, and the first hospital in the country to adopt Rollier treatment for tuberculosis (the famous Perrysburgh, N. Y., Hospital).

The first steamboat, the Walk-in-the-Water, the precursor of the great fleet of merchantmen which now covers the Great Lakes, was built at Black Rock (now North Buffalo, within the city limits).

The Christie Minstrels, who became famous all over the world, started in Buffalo. They were the first Negro minstrels to appear on the stage, and, therefore, Negro minstrelsy began in Buffalo.

A number of the vessels of Oliver Hazard Perry's fleet, which won the Battle of Lake Erie in the War of 1812, were fitted out at the mouth of Scajaqua Creek, within what is now the city limits.

The Grosvenor Library is the fourth largest reference library in the country, exceeding in daily attendance, in proportion to population, the two in Chicago and the one in Baltimore, both larger.

Americanization began in Buffalo in 1908, before the word was coined. In 1930 about three thousand non-English-speaking men and women were studying English and the principles of our government in night schools.

Buffalo ranks as one of the world's ten great ports. In a normal year nearly 10,000 vessels arrive and leave, carrying more than 22,000,000 tons of freight, which exceeds the amount of freight received at, and carried away from, Liverpool.

Buffalo is the only city in the country having a yearbook, in which the various sections describing its industrial, commercial, financial, historical and civic features, are written by the city's recognized authorities in each field of endeavor.

Buffalo has 56 religious denominations, with a total of 341 churches—an average of 1,032 members per church.

Processes requiring high temperatures are most economically carried on with electricity as the source of heat. Buffalo has several large industries found nowhere else in the United States, made possible by the electric power from Niagara Falls.

The production of steel at the plant of the Lackawanna Branch of the Bethlehem Steel Co. necessitates a consumption of 150 million gallons of water per day. This is the equivalent of the pumping capacity of the Francis G. Ward station of Buffalo, which is rated as the largest municipal pumping plant under one roof in the world.

Buffalo has an area of 42 square miles; this has not been enlarged in 80 years. The city is surrounded by prosperous manufacturing and residential communities which are practically a part of Buffalo. The industrial district extends to Niagara Falls.

The assessed valuation of Buffalo real estate is $1,038,764,015. In 1900 it was $223,078,101. The value per acre in 1900 was $829; in 1923, $2,680; in 1929, $3,722; in 1932, $4,522.

Buffalo is 20 miles from Niagara Falls, the world's largest source of hydro-electric power. Manufacturers

Digitized by Google

buy electric power at a lower rate than that charged in any other city of the country.

Buffalo's water supply comes from Lake Erie. A $4,500,000 filtration plant has recently been completed.

Buffalo has 139,860 families and 95,989 dwellings.

Buffalo in 1935 will have a new direct State highway to Niagara Falls via a bridge to the south end of Grand Island, and another from the north end to the City of Niagara Falls.

Buffalo has ample room for growth to the north, east and south, and there are practically no tenement houses in the city.

Buffalo is recognized as having perhaps the best and largest public markets, four in number, in the country.

Buffalo has 55 municipal recreational centers, 31 public playgrounds, six wading pools, three swimming centers, 53 baseball diamonds, 64 tennis courts, four municipal golf courses, 15 football gridirons, five cricket grounds, 20 skating rinks and 10 toboggan slides.

Buffalo has a city-planning board, which arranged for the erection of the new City Hall, dedicated July 1, 1932, costing $7,000,000. The new structure is 32 stories high, with a tower overlooking Lake Erie and Niagara River.

Buffalo's city-planning projects are, in a number of cases, well under way. Water-front parks and a civic center are an important part of the program.

Buffalo has an athletic club building, erected in 1923 at a cost of approximately $2,000,000, one of the finest in the country.

The new Statler Hotel in Buffalo is 19 stories high and has 1,100 rooms. Five Hundred rooms are to be added when required.

The Buffalo Consistory has erected a splendid new cathedral and clubhouse at great cost.

The new New York Central Railroad Terminal Station, completed in 1929, cost $14,000,000 and is 18 stories high.

Buffalo's 174th Regiment Armory is perhaps the second largest and best structure of its kind in the world. This is sometimes used for large conventions. The new 106th Field Artillery Armory is used for many civic events.

Buffalo does not suffer greatly during industrial depressions, being protected by its very great diversity of lines of manufacture.

Buffalo has 29 grain elevators, with a capacity of more than 49,000,000 bushels of grain.

Buffalo has a Better Business Bureau to protect its investors and to insure truth in advertising.

Buffalo has its Municipal Research Bureau, which has conducted several successful investigations.

Buffalo has the finest municipally-owned general hospital in the country.

In social service, Buffalo has always been a pioneer and leader, having been the first to establish work now copied by other cities.

Buffalo's fire department is completely motorized, and is conceded by other municipal authorities and by insurance companies to be highly efficient.

Buffalo has the finest and best-equipped normal school building (State Teachers College at Buffalo) in the state of New York, with the largest attendance.

Buffalo has 83 elementary schools, 9 high schools, 4 industrial (formerly vocational) schools of high school grade, the University of Buffalo, Canisius and D'Youville Colleges, and 68 parochial schools.

Buffalo is the key city of industry, half way between New York and Chicago and half way between the New England and Middle Western states.

Buffalo is the center of the Niagara area, embracing 1,896 square miles of Erie and Niagara Counties and of Canada to the Welland Canal, from Lake Erie to Lake Ontario, with Niagara River in the center.

Raw materials are more easily assembled at Buffalo than at any other point in the country. It is the center of the most populous part of the United States.

Buffalo's climate is ideal for manufacturing. Its summer climate is outstandingly cool; its winters are mild.

Buffalo can command native and foreign labor, and has available the labor of neighboring Canada.

Buffalo is the principal gateway to Canada. It is separated from that country by Niagara River, which is crossed at Buffalo by the new Peace Bridge for vehicles and pedestrians, and the International Bridge, for railroads.

Buffalo in 1930 ranked first in the United States in the number of bus lines serving it, with 17 lines as compared to Chicago, second, with 15.

According to a late report, 338 buses pass in and out of Buffalo daily, with 5,110 passengers each 24 hours. Eleven of the 17 lines are interstate.

Buffalo's tremendous commerce is guaranteed by its strategic position on Lake Erie, Niagara River and the western terminus of the New York State Barge Canal System.

Buffalo's key industries are steel, lumber, grain and rubber.

U. S. Weather reports rank Buffalo first for the uniformity of climate.

Labor conditions are ideal in Buffalo, where educational and recrea-

Digitized by Google

tional advantages encourage home builders.

Buffalo has a complete variety of power resources, coal, gas, oil and water.

Eleven million horsepower of electrical energy each year is Buffalo's potential supply.

Roger W. Babson predicts that the Buffalo region will be the greatest manufacturing center in the United States.

Industries located in Buffalo can ship direct by Lake Erie, canal barge, freight train, truck and commercial airplane.

The Peace Bridge connecting Canada and Buffalo is a vehicular and passenger bridge costing $4,500,000.

Buffalo for years had the largest Rotary Club in the world. It still holds high rank.

The first cellophane plant in the United States was located at Buffalo.

Buffalo was selected as the ideal manufacturing city of the United States by the Dunlop Rubber interests, after an exhaustive survey of 23 American cities. The Dunlop Tire & Rubber Corp. of America plant in Buffalo represents an investment of approximately $25,000,000.

The Bethlehem Steel Corp. recently spent $60,000,000 in enlarging and improving its Lackawanna plant at Buffalo.

Buffalo has approximately 200 exporters, with a large trade in foreign countries.

Buffalo is the home of the Pierce-Arrow Motor Car and Motor Truck. The Stewart Motor Truck is also manufactured here.

Aviation Center

Buffalo has two of the most important airplane plants in the country, the Curtiss and Consolidated, besides the largest parachute factory. During the World War one of Buffalo's airplane plants employed 19,500 men. Buffalo's airport is said by army air service officers and others to be the finest in the United States. It covers 555 acres and is most complete, with adequate buildings, drainage, lights, etc. It has the highest rating possible from the U. S. Dept. of Commerce. It is municipally owned and operated. The city also has a marine airport.

University of Buffalo

The University of Buffalo received its charter from the state legislature in 1846.

For forty years the medical school constituted the entire University, but in 1886 the next division, a school of pharmacy, was added. The policy of expansion thus begun was continued with the addition of schools of law (1891), and dentistry (1892).

Completion of the institution by the addition of a college of liberal arts was, for many reasons, long delayed. In 1909 a site of 106 acres at the juncture of Main St. and the city line was purchased from the county, and ten years later, 44 acres were added. A modest beginning in the instruction of the arts and sciences was made in 1919, and the first class was graduated in 1920.

In 1919 a competition was conducted for a landscape design, to obtain the most artistic, efficient and permanent grouping of the buildings to be erected on a new site. The University's future was not permanently assured, however, until 1920, when a campaign was conducted for an endowment fund of five million dollars, to be raised by the city and vicinity within ten days. Not only was this amount contributed, but additional subscriptions made the final total reach the sum of $5,177,000, representing the gifts of 24,000 citizens.

In 1929, 32,687 individuals and institutions subscribed the further sum of $5,428,890.70 to the endowment and building fund of the University.

The instruction offered by the University is conducted in the following buildings: The Medical Building, erected in 1893 and considerably enlarged in 1920; the Dental Building, erected in 1896 and enlarged in 1902, and again in 1923; the Law Building, used by the school since 1918; and Townsend Hall, used for teachers' and evening classes. Four buildings on the campus are used jointly by the College of Arts and Sciences, the School of Pharmacy, and the School of Business Administration. These are Foster Hall, which, although primarily a chemical laboratory, with laboratory accommodations for 1,200 students, also includes classrooms and administrative offices of the schools; Edmund Hayes Hall, which is the home of the College of Arts and Sciences, and in which also the Chancellor's Office is located; Science Hall, which houses the Departments of Physics and Biology; West Hall, in which the offices of the School of Business Administration are located; and the new Library Building.

For the year 1934-1935 the total enrollment of the University is about 4,000 students.

D'Youville College

D'Youville College has for its aim the training of young women for higher efficiency in intellectual and social work. Its spirit is Catholic and American; for, in its purposes and methods of forming the student's mind and heart, it is guided by the traditions and doctrines of the Cath-

Digitized by Google

olic Church, as well as by the ideals and tendencies of American social and intellectual life. Although a Catholic institution, it receives students of all denominations, and subjects them to no undue influence in regard to their religious convictions. Its chief care, naturally, is the development of character according to the ideal of true Catholic womanhood. The faculty consists of members of the clergy; members of the order of the Grey Nuns of the Sacred Heart, which has recently been established as the American branch of the Grey Nuns, having its mother house and novitiate in the United States, and lay scholars of both sexes. The students have entered the graduate schools of the great universities here and abroad on equal footing with those from other colleges in the States and have done distinguished work therein. The graduates occupy positions of responsibility in the school departments of Buffalo and other cities of New York and elsewhere; they have won approval in the Buffalo City Laboratory, and were distinguished in social settlement work in the schools established abroad for members of the A. E. F., particularly at Coblenz. The students publish a quarterly magazine, which has a high standing among college periodicals of the country. There are two Greek letter societies, the Kappa Chi and the Alpha Sigma. The entrance requirements are those prescribed by the Regents of New York State. Strong departments of music and art are correlated with the College; each department grants a diploma, the department of music having the power to grant the degree of bachelor of music.

Canisius College

Canisius College offers instruction in astronomy, biology, chemistry, English language and literature, evidences of religion, Greek and Latin, geology, history, elementary law, mathematics, drawing, modern languages, pedagogy, physics, public speaking, philosophy in its various branches of logic, metaphysics, psychology, natural theology, ethics, sociology and political economy.

The following are the divisions of instruction:

A. Division of arts leading to the degree of B. A., with Latin and Greek required.

B. Division of general science leading to degree of B. S., no Latin or Greek required. This division also includes a pre-medical course.

C. Division of business administration and prelegal leading to the degree of bachelor of philosophy.

D. College course for teachers and business and professional men of college grade, and open to both men and women. Classes held in the late afternoons, in the evenings and on Saturdays.

E. Summer courses in all college subjects are offered.

THE BUFFALO CHAMBER OF COMMERCE

In a general way, the Chamber of Commerce has been incorporated: To protect, foster and develop the commercial, industrial, mercantile, financial and general interests of the citizens of Buffalo, as well as social intercourse among its members.

Years of accumulated experience have evolved a working organization which operates with efficiency and success. The work of these bureaus is outlined very briefly below:

A little more than a dozen years ago Buffalo was obtaining only 12 new industrial establishments per year, a total of 60 for the five-year period which had just closed. Following the organization of the bureaus, the next five-year period showed a gain of 215 industrial establishments, and the next succeeding five-year period showed a gain of 472. In this period Buffalo obtained more new industrial establishments than Chicago, Cleveland, St. Louis, Philadelphia, Baltimore, Detroit, Boston or Cincinnati. In 1929 Buffalo factories were ninth in the country in value of manufactured products. This was for Buffalo's restricted 42 square miles of area. The Niagara zone produced $1,159,000,00 in value of manufactures annually.

The Industrial Research and Civic Service Department of the Chamber surveys Buffalo and the Niagara area, compiles statistics and data of many kinds and is the fact-finding department for all purposes of the Chamber. It publishes in the newspapers statistics and graphic charts showing business conditions, 2 indices, weekly and monthly.

Under the direction of the Industrial and Trade Development Committee, the Industrial Bureau welcomes all inquiries regarding Buffalo, and follows up every suggestion which might mean bringing a worthwhile factory to the city. The records of this bureau furnish the best possible proof of the growing reputation of Buffalo and an increasing appreciation of the unqualled advantages of the Niagara frontier for production and distribution. Hundreds of inquiries are received and carefully acknowledged. Buffalo literature is sent out, specific questions are answered, and, whenever possible, the owners or organizers of these projects are brought to Buffalo for the substantiation of the city's claims to superior facilities.

Digitized by Google

The Transportation Bureau constantly maintains a vigilant watch over transportation matters generally, and particularly, rates, rules and practices which would place the shippers and receivers of freight in Buffalo at a disadvantage compared to other cities. The Bureau is in charge of the Transportation Committee, which finds it necessary to meet weekly to give consideration to important matters coming before it.

The Bureau, on behalf of the Chamber, and representing the city as a whole, or on behalf of individual shippers or associations, is represented before the various railroad bodies —Interstate Commerce Commission, Public Service Commission, etc. It not only intervenes on behalf of shippers having difficulties, but keeps a constant check on the traffic situation at Buffalo, and works for improvements wherever they are deemed necessary.

The Traffic Service Bureau acts as traffice manager for members of the Chamber who desire its services. Its rate department is second to none and its efforts in tracing and expediting shipments are unusually successful. Collection of thousands of dollars is made each year, through the auditing of freight bills and adjustment of claims. It is in position at all times to furnish, promptly, accurate embargo information, as well as valuable assistance in connection with export shipping.

It keeps its clients informed of changes or contemplated changes in rates, rules or regulations. In short, the Bureau acts in the interests of its members in every detail of transportation work.

The Safety Bureau works daily with factories, schools and organizations in promoting industrial and public safety; conducts brake-test campaigns annually, and makes traffic surveys. Its work affects every building, home and individual in the city.

The Export Trade Bureau, until recently a co-operative office of the U. S. Bureau of Foreign and Domestic Commerce, of Washington, grew so much in 1928-1929 that it was elevated to a District Office of the U. S. Government. It promotes interest in foreign trade by furnishing trade opportunities, translation aid and information regarding markets, customs tariffs, packing, steamship routes, foreign banking, consular requirements and trade-mark registration. It connects manufacturers with importers in foreign countries, establishing agency regulations between them. The Chamber is continuing foreign trade activities of its own, co-operating with the Government.

SPECIAL HISTORICAL FACTS ON BUFFALO

By Roy W. Nagle, Editor, Kensington Topics

Early Names of Streets

Back in the days when crowded streets were the least worries of our city fathers, their favorite pastime was changing the names of Buffalo's streets and avenues. Earliest of all these changes was that of July 13, 1826, when the highway commissioners wiped off the village map the unwieldy Dutch names.

Delaware, Huron, Mohawk, Eagle, Swan, Seneca, Elk and Chippewa are the only streets shown on the original map of Buffalo, or New Amsterdam as it was first known, that have retained their names to the present day. The first street map was made in 1804.

What is now Main Street had been named Willink Avenue from the Buffalo River to Shelton Square and from there north, Van Staphorst. Schimmelpennick Avenue was changed to Niagara Street. A map published in 1836 shows Niagara as Broadway from the Erie Canal to Amherst Street, which was then called Ferry Street.

Vallenhoven was the name first given to Erie Street, and Church Street was Stadnitski. In honor of Paul Busti, general agent of the Holland Land Company, The Terrace, above Erie Street, was called Busti Terrace. Genesee was also named for Busti. Pearl was Cayuga; Franklin was Tuscarora; Washington was Onondaga; Ellicott was Oneida; and above Erie Street, The Terrace was called Cazenovia Terrace.

Mississaugua became Morgan Street, and later, Webster, but in 1835 was renamed Morgan. Today is is South Elmwood Avenue. In 1831 a street running from The Terrace along Little Buffalo Creek to Big Buffalo Creek appears on the records as Red Line Road, and in 1833 it was named Commercial Street.

March 21, 1853, was the next date on which there was a big shake-up in street names, when Buffalo's city limits were extended to include Black Rock. Commerce was changed to Breckenbridge; Michigan, to California; Lock, to Hamilton; Ferry, to Amherst; Niagara below Scajaquada Creek to Dearborn. Niagara and Dearborn had previously changed names, on Apr. 23, 1839, when it was ordered that Niagara, north of the creek, should be Dearborn and that Niagara should be continued along the northern limit of Black Rock. The exchange in 1853 left the streets as they are now.

More changes in street names were made on Dec. 22, 1879. Delaware

Digitized by Google

Street was changed to Delaware Avenue; North Porter, to Gelston; North Washington and Eleventh, to West Avenue; Blossom, to Grant; South Allen, to Douglas Alley; Jefferson, to Herkimer; Monroe, to Parkdale. Cornelius Creek Road, Bird Street and Colvin Street were merged under the general name of Hertel Avenue.

North Street was formerly Guide Board Road. It was laid out in 1814. The first street to be called North is now known as Farmer Street. The name of Trinity Place has been changed many times. On a map of Buffalo made in 1846 it was known as German Street; in 1855 it was changed to Delaware Place, and in 1871 it was called Sussex Place. The street was again called Delaware Place and retained this name until March 20, 1893, when is was given the name of Trinity Place.

On May 15, 1876, Plymouth Avenue had its name changed from Twelfth Street. The name Michigan was given to this thoroughfare in 1835, and it was previously called Martin Street and Willow Street. Before Dante Place was known as Canal Street, it was called Ham Alley. Although Ganson Street was laid out on June 19, 1854, it was not named until Aug. 9, 1869. It was first called Coatsworth, but soon changed to Ganson.

Fourteenth was laid out as East Street, but in 1850 it was given a number. Until May 24, 1869, Fargo Avenue was Tenth Street. McPherson, Fremont, North William and Elmwood Avenues were given one name in 1887, and this now continuous thoroughfare was named Elmwood Avenue. Louis Street was changed to Edward in 1855.

Early maps of Buffalo show West Delavan as the Old Gulf Road and Seventeenth Street. The east end was known as Pine Hill Road. The name Delavan was conferred in 1858. Until 1893, Day's Park was known as Norris Place and Clifton Place. In 1832, when Buffalo was incorporated as a city, Carroll Street was opened as an alley and was first called Steuben Street.

On the 1836 map, Austin Street appears as Batavia; when Buffalo and Black Rock were merged in 1853 the name was changed to avoid duplication, as Broadway was known as Batavia Street until June 18, 1877. Lafayette Avenue was the third Batavia Street. It was changed in 1853 to Bouck Avenue, and from that to Lafayette, when the Lafayette Street Presbyterian Church moved from Lafayette Square to Lafayette and Elmwood Avenues.

100 Years Ago

The first anti-slavery society was organized and attracted considerable attention throughout the country.

Flouring mills came into existence in 1834 at Black Rock, where ample water power existed in the swift current of the Niagara River.

Elbridge Gerry Spaulding settled in Buffalo in 1834, and for upwards of sixty years was identified with the city's commercial, legal and political history.

On Sept. 16, 1834, Mayor Ebenezer Johnson appointed the first city watch to patrol the streets night and day, with an additional squad for special duty Saturday and Sunday nights.

The Common Council voted to borrow $15,000 to buy a market ground and erect buildings thereon, and an additional $5,000 for a hospital.

Sherman S. Jewett arrived here on May 3, 1834, and Martin H. Birge came to Buffalo, three months later. Both built successful businesses.

Lot sales were active in Buffalo in 1834 and the transactions represented an enormous sum. Downtown property averaged $2 per foot front.

KENMORE

Kenmore is a village, incorporated under the general village laws of the State of New York, and is situated in the Township of Tonawanda. The estimated population of Kenmore is 18,000 persons. Kenmore's assessed valuation for 1933 is $23,092,508; its net budget is $327,446.24, and tax rate is $14.18 per $1,000.00 valuation.

The law-making body is a board of Trustees, consisting of a mayor and four trustees. Two trustees are chosen each year and the mayor every two years. The

annual election is the third Tuesday in March. The board is empowered to pass ordinances and enforce them, but its general powers are prescribed by the State law. It appoints police officers, superintendent of public works, clerk, attorney, engineer, building and plumbing inspector and other employees. It acts as a board of election inspectors.

Under a special act of the Legislature in 1917 the office of receiver of taxes and assessments was created, to take the place of the village treasurer. This officer collects all taxes and water bills.

Village Board meets every Monday evening in the Village Hall, at 8 o'clock.

The Better Business Bureau

What Does It Do?

THE BETTER BUSINESS BUREAU protects the public FIRST. Its services are free. Every citizen in this community should become acquainted with its functions and learn to use its facilities.

Buffalo merchants are striving to keep their advertised statements accurate and truthful. They want you to report to the Bureau any unsatisfactory experiences which you may encounter in answering advertisements. That is YOUR part of this big job.

The Bureau also gathers information about all sorts of new, unknown or doubtful investment propositions, so that you can come to an impartial agency, without charge, and get accurate information to protect yourself. It advocates "Before You Invest—Investigate."

Your part in helping to keep Buffalo a safe place in which to buy is to direct the Bureau's attention to cases that appear to be questionable.

Names Appearing in Black Letters

IN THIS DIRECTORY are the names of those people who ACCOMPLISH THINGS and are entitled to favorable consideration, if for no other reason than their public-spirited support of measures which make for progress. They represent that ENERGY AND PUSH so essential to the commercial prosperity of the City, and in dealing with them no mistake will be made. The publishers are honored in thus making them better known to the public.

BUILDING BUFFALO BUSINESS

THE Buffalo Chamber of Commerce has nothing to sell. Its function is to render service. It is organized for the purpose of expending funds in a manner that will benefit the community. It does not finance enterprises, market goods, invest funds, issue stocks or bonds, or derive a profit from any source. It has no powers excepting those supplied by the co-operation of the business men of the city and the value of the services rendered.

To secure this co-operation and to make its services valuable, unity among the business men of the community is essential. This means membership in the Chamber, service upon its committees, study of the civic problems it presents, and support of its decisions and policies. If its policies are determined by the real leaders of Buffalo business, the Chamber will be a conservative body. If its actions are decided by those progressive builders of Buffalo business, the public will welcome its works and accept it as a most valuable adjunct to the city's life.

The efforts of the Buffalo Chamber are directed to payroll and trade development. Anything affecting the trade balance of this metropolitan district and the general prosperity of its inhabitants interests the Chamber. By experience, in all large centers methods have been devised which, if consistently followed, will attract investments and increase business within an area. These methods are being followed in Buffalo. They are limited and restricted only by the income of the Chamber and the enthusiasm of its members.

Two of the Many Shopping Conveniences At Adam, Meldrum & Anderson Co.

(1) "CHARGE IT" . . . .

A convenience that has a double advantage . . . making it unnecessary to carry any considerable sum of money around with you, with the danger of losing it . . . and also enabling you to balance your monthly budget of expenditures over two months, because purchases made on and after the 25th of the month are not billed till the first of the second month following. Why not enjoy this convenience in "Buffalo's Greatest Store?" Complete information will be given you gladly in Main Office, Sixth Floor.

(2) Convenient Plan of Payment With No Interest or Carrying Charges

This plan enables you to purchase Rugs, Furniture, Draperies, Radios, Stoves, Refrigerators, Washing Machines, Ironers, and other homefurnishings when needed . . . spreading your payments over a period of time, and affording you the fullest use and enjoyment of these necessities at once. And remember, you pay **no interest or carrying charges in** "Buffalo's Greatest Store"—nothing but our regular fair prices for worthy merchandise.

The Sign over your door

tells the passer-by that you are there ready to serve him.

But you also want to tell people, in all parts of the community, where you are and what you do.

The sign is only seen, however, by the small portion of the population who pass your way. Being fixed, it cannot reach out and tell somebody, a good prospect, on the other side of town about your business.

But Your Directory Advertising

is before the entire community

It directs buyers from all parts of the community to your business and to any particular service which they may require.

The advertisers stand out as the leading and permanently progressive firms of the community.

You should make it easy for people to find you by putting in the directory such information as a buyer wants to know.

For FREE suggestions on how to make your advertising most effective write—

FURNITURE POLISH

TRY DUSTING WITH **LIQUID VENEER** LEAVES NO GREASY FILM

Because Liquid Veneer leaves no greasy film it requires less rubbing than ordinary polishes. It gives any surface a beautiful, dry polish in one-half the usual time. It will not collect dust as quickly nor is there danger of soiling delicate fabrics because Liquid Veneer will not even soil a white kid glove. Cleans, polishes, renews and beautifies all fine finishes. Valuable certificates now packed with each bottle, redeemable in beautiful silverware.

Locating Missing Heirs
Finding Lost Persons

This is only one of the many offices that the modern directory successfully fills

The directories of the United States form a perpetual inventory of the human element of the nation as well as the business activities.

Police Departments, the country over, rely upon directory information for the location of lost persons. Lawyers and executors of estates are likewise dependent on the information that these "city catalogs" contain.

Real Esate buyers and agents have multitude occasions to refer to the pages of directories of other cities in order that they may have detailed and authentic information on parcels of land and subdivisions in which they have a personal or business interest.

Credit managers have unlimitod use for the pages of the modern directory, as have collection managers and agencies.

The uses of the city directory are legion; the information is authentic and the manufacturers and companies that are represented therein are reputable and dependable.

Make More Use of Your City Directory ! ! !

WHEN YOU BUILD

YOU BUILD TO LAST—
IF YOU ARE WISE

An Advertisement in this Directory lasts a whole year, and it is worth as much the last day as on the first, for it is the only place people can be sure to find out something about you.

Digitized by Google

BUY, SELL, RENT, TRADE

For over fifty-three years Buffalonians and Western New Yorkers have found that the most economical way to fill their needs and supply their wants is through the classified section of the Buffalo Evening News.

Because the Buffalo Evening News is read by more than 88% of the families of Buffalo, Kenmore and Lackawanna—because the Buffalo Evening News is first in news, first in features, first in circulation—the News publishes more classified advertising than both other Buffalo newspapers combined!

This record of leadership in classified advertising is built on one fact alone NEWS WANT ADS PRODUCE RESULTS . . speedily and economically.

In the Palm of Your Hand

PLANNED CIRCULARS ARE ADAPTABLE TO ANY SELLING PROBLEM

Planned Circulars offer the advertiser Spot Circulation, with coverage in direct proportion to the density of population, yet flexible as to where, when and how used.

Nationally, sectionally, cities or towns or marketing zones, you can pick off sales with single-shot accuracy or you can sweep entire consumer fronts with an intensified offensive. It puts the prospective customer in the palm of your hand.

The Planning department of the Everybody's Daily Publishing Co. is always ready to discuss with interested concerns their Circular needs.

That is what many buyers have said of Clement service—and that is what we have tried to make it.

We have built our organization on the principle that the only satisfactory printing service is the one which is complete in itself—one which can handle every detail of any piece of printing, from creating it to mailing it—one which accepts full responsibility without quibble or evasion.

To that end we have installed the most modern of mechanical equipment in every department—we have employed the most experienced of craftsmen—we have continually added to our staff seasoned executives and recognized specialists in every branch of the graphic arts.

Satisfy yourself that we can serve you completely. Visit our plant, examine our equipment, talk with our executives and specialists. You will see much of interest, learn much of value—and you will be very welcome.
